

Piglet Rubber Feed Trough

Porks and oxen can pick 70-14 holes.

Product code	350
Specification code	3502
Primary category	Pig Farming Equipment
Secondary category	Pig Feeding Equipment

This rubber piglet feeder is designed for feed handling and feeding management in pig farms, livestock farms, nursery houses. It uses tough flexible polymer construction or components suited to routine farm use.

Features

- Product type: rubber piglet feeder.
- Material: tough flexible polymer.
- Specification: 70-14.

Advantages

- Improves day-to-day operating efficiency.
- Easy cleaning supports better hygiene management.
- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.
- Helps reduce unnecessary material or resource waste.

Description

Suitable for feed handling and feeding management in pig houses. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
