

Cattle Castration Pliers

Cows use the force-crackers.

Product code	502
Specification code	5021
Primary category	Cattle Farming Equipment
Secondary category	Cattle Farm Tools

This cattle castration pliers is designed for castration procedures in cattle farms, ranches and livestock farms. Its practical structure is intended for reliable day-to-day operation.

Features

- Material: metal.
- Purpose-built structure for routine use as a cattle castration pliers.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Stable construction supports reliable routine operation.

Description

Suitable for disinfection and hygiene management, castration procedures for cattle. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition.
