

Cattle Drinker

The steel plate is a big, big, big oxen bowl.

Product code	829
Specification code	0807
Primary category	Cattle Farming Equipment
Secondary category	Cattle Drinking Equipment

This cattle drinking equipment is designed for animal drinking-water management, water-supply management in cattle farms, ranches and livestock farms. It uses steel plate construction or components suited to routine farm use.

Features

- Material: steel plate.
- Reinforced construction improves durability for routine farm use.
- Purpose-built structure for routine use as a cattle drinking equipment.
- Simple construction supports convenient installation, operation and maintenance.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.
- Suitable for routine use in commercial and large-scale livestock operations.

Description

Suitable for animal drinking-water management, water-supply management in cattle farms, ranches and livestock farms. Confirm that pipe sizes, water supply and connections match the installation requirements. Check for leaks and proper flow after installation, and clean water-contact parts regularly to maintain hygienic and stable operation.
